

PACIFIC COUNTY: SPECIAL HEALTH CARE NEEDS RESOURCE GUIDE

These resources are provided as a support that may be helpful, they do not replace medical advice or professional services and should not be used to treat or diagnose a health problem.

AUTISM RESOURCES

What is Autism?

“Autism, or autism spectrum disorder (ASD), refers to a broad range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication. According to the Centers for Disease Control, autism affects an estimated 1 in 36 children in the United States today.”

AUTISM RESOURCES

After Diagnosis

“Treatment for ASD should begin as soon as possible after diagnosis. Early treatment for ASD is important as proper care and services can reduce individuals’ difficulties while helping them build on their strengths and learn new skills. People with ASD may face a wide range of issues, which means that there is no single best treatment for ASD. Working closely with a health care provider is an important part of finding the right combination of treatment and services.”

SMART TEAM REFERRALS FOR PACIFIC COUNTY

WHAT IS SMART TEAM?

The SMART (School Medical Autism Review) Team consists of community service providers who have the experience and passion for supporting local families. The SMART team will make recommendations or referrals to a Certified Center of Excellence (COE) Provider who is able to evaluate and provide an Autism diagnosis if one is warranted.

WHAT WE DO

Our Team meets monthly to review referrals and determine the next steps for families. We work closely with the Children and Youth with Special Health Needs (CYSHCN) program to ensure that families are provided with resources and a next-steps-plan whether their child receives an Autism diagnosis or not.

HOW TO MAKE A REFERRAL

Anyone can make a referral to the SMART Team for a child **10 years of age or younger**, including medical professionals, school districts, service providers, and parents. There is no cost to families for this service. If you are from an agency/school district/medical office etc. and are referring a family to the SMART Team, we ask that you please inform the family about the referral prior to sending it in, thank you.

There are three ways to make a referral:

- Use the Online Referral Form
- Print out a Referral Form
- Contact a SMART Coordinator

CYSHCN RESOURCES

Children & Youth with Special Health Care Needs

“In the Children and Youth with Special Health Care Needs (CYSHCN) program, we promote connected systems of care for children and youth with special care needs from birth through transition to adulthood. We work with national, state, local, and community partners to help connect CYSHCN and their families to the health and related services they need to thrive.”
